_{le name:} 610 Concrete Oil clear		
vPvB:	Not applicable.	(Contd. of pag
SECTION 3: Composi	tion/information on ingredients	
3.2 Mixtures Description:	Mixture of substances listed below with r	onhazardous additions.
Dangerous components:		
EC number: 918-481-9 Reg.nr.: 01-2119457273-39	aliphatic hydrocarbons, C10-C13	Asp. Tox. 1, H304 25–50
Additional information:	For the wording of the listed hazard phra	ses refer to section 16.
SECTION 4: First aid I	measures	
4.1 Description of first aid	measures	
General information:	Take affected persons out into the fresh Immediately remove any clothing soiled I	
After inhalation:	Supply fresh air. If required, provide artifi Consult doctor if symptoms persist.	cial respiration. Keep patient warm
After skin contact:	Immediately wash with water and soap a If skin irritation continues, consult a doct	•••
After eye contact:	Rinse opened eye for several minutes ur doctor.	nder running water. Then consult a
After swallowing:	If symptoms persist consult doctor. Do NOT induce vomiting.	
4.2 Most important sympto	oms	
and effects, both acute an	d	
delayed	Dizziness	
4.3 Indication of any	Headache	
immediate medical attention	n	
	<i>ded</i> No further relevant information available.	
SECTION 5: Firefighti	na measures	
5.1 Extinguishing media Suitable extinguishing		
agents:	CO2, powder or water spray. Fight larger resistant foam.	r fires with water spray or alcohol
For safety reasons unsuita	able	
extinguishing agents:	Water with full jet

Revision: 25.11.2019

Printing date 25.11.2019 Version number 1.0 Trade name: 610 Concrete Oil clear (Contd. of page 2) 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: No special measures required. Additional information Cool endangered receptacles with water spray. Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. **SECTION 6: Accidental release measures** 6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation Keep away from ignition sources. 6.2 Environmental precautions: Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water. 6.3 Methods and material for containment and cleaning up: Warm water and cleansing agent Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders). Ensure adequate ventilation. 6.4 Reference to other sections See Section 7 for information on safe handling.

SECTION 7: Handling and storage

7.1 Precautions for safe		
handling	Use only in well ventilated areas.	
	Keep receptacles tightly sealed.	
	Ensure good ventilation/exhaustion at the workplace.	
	Prevent formation of aerosols.	
Information about fire - an	d	
explosion protection:	No special measures required.	
7.2 Conditions for safe sto	rage, including any incompatibilities	
Storage:		
Requirements to be met b	y	
storerooms and receptacle	es: Store only in the original receptacle.	
•		(Contd. on page 4)

See Section 13 for disposal information.

See Section 8 for information on personal protection equipment.

Information about storage in
one common storage facility:Not required.Further information aboutNot required.storage conditions:None.Storage class:VCI storage class (VCI = German Association of the Chemical Industry): 107.3 Specific end use(s)No further relevant information available.

SECTION 8: Exposure controls/personal protection

Additional information about design of technical facilities: No further data; see item 7.

8.1 Control parameters Ingredients with limit values that require monitoring at the workplace:	The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
Additional information:	The lists valid during the making were used as basis.
8.2 Exposure controls	
Personal protective equipment	t:
General protective and	
hygienic measures:	Do not eat, drink, smoke or sniff while working.
	Do not carry product impregnated cleaning cloths in trouser pockets. Keep away from foodstuffs, beverages and feed. Do not inhale gases / fumes / aerosols.
Respiratory protection:	Not necessary if room is well-ventilated.
	Use suitable respiratory protective device only when aerosol or mist is formed. Use a properly fitted, air-purifying or air-fed repirator complying with an approved standard if a risk assessment indicates this is necessary. Half mask with round thread connection EN 148-1 (screw-on filter) and combination filter A1 - P2 according to German DIN EN 14387.
Protection of hands:	To avoid skin problems reduce the wearing of gloves to the required minimum. Protective gloves
	The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
	Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
Material of gloves	The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

	(Contd. of page 4)
Penetration time of glove	
material	The exact break trough time has to be found out by the manufacturer of the
	protective gloves and has to be observed.
For the permanent contact	
gloves made of the following	
materials are suitable:	Nitrile rubber, NBR
	Recommended thickness of the material: \geq 0.4 mm
	For the mixture of chemicals mentioned below the penetration time has to be
	at least 480 minutes (Permeation according to EN 16523-1:2015: Level 6).
As protection from splashes	
gloves made of the following	
materials are suitable:	Nitrile rubber, NBR
Eye protection:	Goggles recommended during refilling
	If risk of splashing:
	Safety glasses according to EN 166:2001 (e.g. densely closing frame glasses
	with side protection)
Body protection:	Not required.
	Protective work clothing

SECTION 9: Physical and chemical properties

9.1 Information on basic physical a General Information	niu chemical properties	
Appearance:		
Form:	Viscous	
Colour:	Yellowish	
Odour:	Mild	
Odour threshold:	Not determined.	
pH-value:	Not determined.	
Change in condition		
Melting point/freezing point:	Undetermined.	
Initial boiling point and boiling ra	nge: Undetermined.	
Flash point:	>63 °C (DIN EN ISO 2719)	
Flammability (solid, gas):	Not applicable.	
Ignition temperature:	240 °C	
Decomposition temperature:	Not determined.	
Auto-ignition temperature:	Product is not selfigniting.	
Explosive properties:	Product does not present an explosion hazard.
