

REPAIR SET

The Osmo Repair Set is an easy to use repair kit to restore small cracks, splits and damages to wooden surfaces. Contains a battery powered 'Mini-Melter' heating knife for melting one of the 6 filler wax sticks to apply, fill, level and then finish using the fine scotchbrite pad. The wax sticks are made of high quality raw materials, are hardwearing and have very good adhesive properties.

REPAIR SET

The repair set for wood flooring, laminate, high-quality furniture, windows and doors.

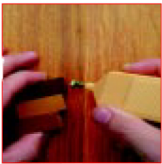

High quality materials

Quick & easy application

Ideal for DIY

How To Use

Melting

Liquefy the filling material with the heated melting knife...

Filling

...and drop liquid filler into damaged area until area is slightly overfilled

Levelling

When filling material has cured, plane off the excess using the grooved handle of the Mini-Melter.

Finish

Remove any final filler residues by polishing lightly with the grey Scotch Brite Pad - Finished!
